

Conference Speakerphone

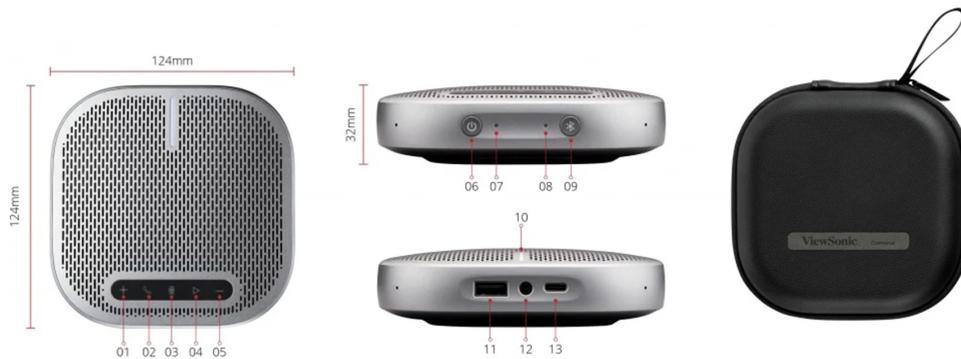

Key Features

- Premium 360-degree omnidirectional conversation quality with sound coverage for up to 6 meters
- Optimized sound clarity with 4 array microphones featuring echo cancellation and noise reduction
- Effortless meetings on the go with portable and lightweight design
- 24-hour battery life with reverse charging to help keep you connected for important tasks
- Easy connectivity with Bluetooth 5.0 and USB-C

Product Description

ViewSonic conference speakerphone is the perfect product for frequent online meetings for at home or in the office. It has a premium conversation quality with 360 degree omnidirectional 6 meters diameter coverage to facilitate optimal conversation. It also has four array microphones with echo cancellation and noise reduction to make sure every word is articulated and clearly heard. In addition, it is great for portability with a light weight of 340g and 24-hour call time for meetings on the go. ViewSonic conference speakerphone can also serve as a mobile charger in case your phone battery is running low. Finally, the USB type C port and Bluetooth 5.0 allows for hassle-free connectivity and efficiency.
